## PROJECTS

---

### [Full-Stack Recipe Website](#)

Developed a recipe application using Express.js, EJS, and MongoDB. Implemented search functionality, efficient data management with MongoDB, and environment configuration for secure deployment. Delivered a user-friendly interface with robust backend functionality.

### [Pinterest Clone](#)

Developed a Pinterest-like application using Express.js, EJS, MongoDB, Passport.js, and Multer. Implemented secure user authentication, image uploading, and a user-friendly interface with robust backend functionality.

### [Fashion Landing Page](#)

Developed a fashion landing page using React.js, Tailwind CSS, and Locomotive Scroll. Implemented smooth scrolling animations and a responsive, stylish interface with modern design elements. Delivered a visually appealing and user-friendly experience.

## CERTIFICATE

---

### [The Complete App Development Masterclass With Kotlin](#)

Successfully completed a comprehensive Kotlin certification course, acquiring in-depth knowledge and practical skills in Kotlin programming.
